

**Friends of
the Earth**

Fed up with
Winchester's air
pollution from
traffic fumes?

Wish that we lived
in a more
pedestrian and
cycle-friendly city?

Please join Winchester Friends of the Earth's

Air Pollution Demo

11am on Sunday 11th December 2016

Meet at Winchester Discovery Centre & march down the
High Street to finish at City Museum for a photo call.

Traffic-generated air pollution is invisible but very harmful.
It is linked to asthma, heart disease, cancer and dementia.
Winchester City Council *continues* to break air quality law.

We need ACTION!

Make and bring your own banner - or carry one of ours!
